The screenshot displays the IBM Cloud dashboard in a web browser. The browser's address bar shows 'cloud.ibm.com'. The dashboard header includes a search bar, navigation links for 'Catalog', 'Manage', and the user's name 'Mathesh Sudharsan's A...'. A user profile dropdown menu is open on the right, showing options like 'Profile', 'Log in to CLI and API', 'Privacy', 'Change theme', and 'Log out'. The main content area, titled 'Dashboard', features a 'For you' section with five cards: 'Build' (purple), 'Monitor your resources' (light gray), 'API Connect' (light gray), 'IBM Watson Machine Learning' (light gray), and 'Get started learning' (light gray). Each card includes a brief description and a 'Getting started' button with a time estimate. Below this, there are three sections: 'User access' with a 'Manage users' link, a 'News' section with a 'View all' link, and a 'Planned maintenance' section with a 'View all' link. The 'News' section contains an announcement for 'IBM Cloud Pak for Network Automation Version 2.4'.
